DEAR SIR:

(corrected)
12-13-29 J.H. Operations at your well No. 2 LOUIS F. DEKAY & SON Section 28, T. 6-S, R. 10-W, S. B. B. & M.

Newport

Oil Field, in Orange

County, were witnessed by

V. Austin

, representative of the supervisor,

on November 13, 1929. There was also present H. L. Rivers, Foreman, and

W. Rice, Driller

Casing Record Total Depth 860': 12 $\frac{1}{2}$ " cem. 782': 10" liner 640'-860' all perf.

The operations were performed for the purpose of testing the location and hardness of a cement plug proposed to be placed from 40' to 20' in the process of abandonment.

and the data and conclusions are as follows:

MR. RIVERS REPORTED THE FOLLOWING:

1. A 7'x12 $\frac{1}{2}$ " wooden plug was driven down to 120'.
2. 10 sacks of sand was dumped on the plug.
3. On November 12, 1929, dumped 15 sacks of Santa Cruz cement on plug.
4. The top of the set cement was not located.

THE INSPECTOR NOTED THAT the plug was located at 89'.

THE LOCATION AND HARDNESS OF THE CEMENT PLUG AT 89' ARE APPROVED.

DISCOVERY**

Dear Sir:

I am advised by the Newport Petroleum Corporation that its well No. "Tunnel" 1, Sec. 27, T. 6 S., R. 11 W., S.B.B. & M., Newport field, is being sunk at a different location from that given in the notice and as recorded in our report No. P-1-9646.

The correct location of the tunnel is 600 feet north of well No. 1.

Kindly make the necessary corrections in your copies of records of the well.

Yours truly,

C. C. Thomas
